

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicants:	Samuel William Kingman	Customer No.:	21003
Serial No.:	10/509,988	Examiner:	Daniel Leon Robinson
Filed:	05/09/2005	Group Art Unit:	3742
For:	Pre Treatment Of Multi-Phase Materials Using High Field Strength Electromagnetic Waves		

AMENDMENT AND RESPONSE TO OFFICE ACTION

FILED ELECTRONICALLY January 28, 2008

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

A three-month extension of time to respond to the non-final Office Action dated July 27, 2007 for the above-identified application is hereby requested. The required fee is enclosed herewith. Any additional fees can be charged to our Deposit Account No. 02-4377.

Applicant notes that Examiner labelled the Office Action Non-Final in the Office Action Summary, though there is a reference to the action being made final on Page 3. Applicant thanks the Examiner for the voicemail message on August 10, 2007 stating that any ambiguity should cause the action to be considered non-final.

As stated in Applicant's response of May 16, 2007, Applicant believes that the amendments to claims made therewith caused claims 33, 34 and 38-49 to be directed to the same patentably distinct invention as the claims in Group I previously elected, and Applicant requested consideration of these claims. Examiner has not addressed these claims.

Applicant provides the following amendments and remarks for consideration by
the Examiner:

Amendments to the **Claims** begin on page 3 of this communication.

Remarks begin on page 10 of this communication.
